

Assembly Instructions:

Step 1) Let's go back and find part #9 (Main Body) and part #3 (Muzzle).

Place some stuffing into the Muzzle and then position it onto the body as shown. I use some long straight pins to help hold my piece in place while I stitch it. It's not a requirement but does make some of the pieces easier to deal with.

Step 2) Now take a Contrasting Colour of Yarn and stitch on the Eyes, Nose and Mouth.

Step 3) This stage will be taking two part #6's (Legs) and stitching them to the sides of part #9 (Main Body).

Pin the legs as shown in the following photos.

Once you have the first leg stitched on, stitch the second leg onto the opposite side of body.

Step 4) This stage will be taking part #1 (Tail) and stitching it to the back of part #9 (Main Body).
