

If you are unsure how to D-Link, watch the Introduction to D-Link first. Then watch the Yarn Pooling version to understand how the variegates turn out that way.

D-Link Planned Pooling Afghan[/caption]

I'm currently working on my new toddler size blanket.

MC - [Bernat Blanket Brights. Raspberry Ribbon](#)

A - [Bernat Blanket Brights. Purple](#)

Using MC, ch 100.

Row 1: D-Link across. Fasten off.

Row 2: Using A, attach to 1st st. Ch 2 (doesn't count as st), hdc in each st across. Fasten off.

Repeat rows 1 - 2 until satisfied. End with Row 1.

This afghan is still in development, so I don't have exact yarn count. Currently, I have used 3 balls of Raspberry Ribbon and 2 balls of Purple. I still have to finish another foot and do a simple border that matches the look.
