**SUMMER LOVIN'
HAPPENED SO**

.... SLOWLY

**I made some slipper boots,
perfect for me...**

For many of us, summer means house guests, slow evenings, and long-lasting conversations. Built with single crochet, from Bernat Softee Chunky, these easy slipper boots will keep your fingers happy, as the day unwinds.

Designed in five sizes, from child's 3/4 up to an adult 11/12, you can make a pair for each of the people you love, starting with yourself.

This project looks great in a single, solid colors, but could be made stripey, with left-over chunky yarn from last winter's cozy afghan.

I met a caterpillar,
cute as can be...

Snuggle Sacks are the cutest new trend to crochet for babies. This one is for a particularly hungry little one, with lots of wiggle-squiggle-growing to do. We love the playful rainbow colors and the irresistible pom pom antennae.

Built with hdc, in extra soft, super bulky Bernat Blanket Brights, this easy project will hatch from your hook in no time.

Summer days,
drifting away...

Nautical fashions are hot in summer 2019. We love the interesting texture on this pillow, crochet with a waterfall fringe.

Made with plush, soft Bernat Crushed Velvet, the pillow is built from easy single crochet, with the fringe applied afterwards (click through for the tutorial, from Yarnspirations).

It looks beautiful in blue, but we would love to see it in corals, teals, even a rainbow of fringe.

...to oh, oh, the summer nights...

Brand new this June, Mikey has created 5 Textured Pillows.

There is an important reason behind this set of projects: self-healing. Life wears us down, and sometimes it's important to create a soothing, smaller project.

Created by Mikey

Easy colors show off the beauty of your stitch work, enhanced by crafting more than one pillow in the same color tone.

Mikey has made tutorials to go with each of these 5 patterns, with one of his favorite yarns: Bernat Maker Home Dec.

Summer sun, something's begun...

Summer speeds us up, and also slows us down. With travel, heat, and sand to contend with, we crocheters turn to smaller, portable, satisfying projects.

Made with Bernat Handicrafter Cotton, this spa Day Kit is an excellent way to treat yourself (and also makes an thoughtful hostess gift.)

Including five free easy patterns, you can make a bath pouf, floral facecloths, a bath mitt, a shower scrubby, and a stash basket to hold it all.

Was it love at first sight?

Shine bright this summer with an easy, hand made openwork top. Designed in six sizes, from XS to 4/5XL (28" through 62" bust) this easy to wear shell is flattering to lots of body shapes.

When we saw this pattern, we thought of all the fashionable tween and teens in our families, who have long outgrown the dresses and toys (well, maybe not the toys) we have made for them. This easy-to-wear top can become a summer favorite, made in your tween's favorite color.

Built in two panels, from single and double crochet, this top is an excellent start for a new crocheter's first garment.

...but, oh,
those summer nights*

This spring, a wonderful thing happened. Mike and Daniel invited me to help out in their home studio, working on web content, so they can focus on free patterns, fabulous cruises, and keeping the crowd crocheting. Deeply in love with all things yarn, this opportunity is a pinch-me-it's-real kind of occurrence.

While Mike and Dan patiently answer all my questions, and share invaluable info about the world of yarn, I have tried to think through what I have to offer to the Crochet Crowd this summer. Most of my crafting hours have gone to knitting (I know, I know), but these days my stash calls out for hooks - for new projects, new textures, new techniques. I'll be learning along with any of your new to crochet - reveling in my backstage pass to the best crochet instructors online.

I've loved making toys, and slippers, from beginner crochet patterns, but the last few weeks have made me eager to jump in with both feet and start an afghan, for my teenager, who still loves her hand made toys. But, which pattern, with so many to choose from!?

Thank you all for the warm welcome at the Crochet Crowd Facebook Page, for being patient with my newbie-mistakes, and for sharing your love of all things crochet. And, of course, thank you to Mike and Dan, for making me the luckiest yarnie in Nova Scotia, Canada.

May your yarn never tangle, and your hooks always be close at hand,
Love, Devin
