Sewing needle/ Large eyed Darning needle  
Scissors  
Polyfill Stuffing  
Stitch Marker  
Pins

## PIECES FOR ASSEMBLY

### TISSUE COVER (5mm hook)

[Turn tissue box(es) upright as shown]

#### **Important NOTE:**

**\*\* I have provided you with two options for your tissue boxes below. The number of stitches around at **Rnd 9 (Rnd 15 of Option B)** will be the number of stitches you work for the rest of the cover. Try adjusting your hook size *FIRST* to meet the stitch count of Option A or B. If you have a different stitch count for proper fit, you will have to adjust the hat and hair pieces as well, because they wrap around the cover and the number of sts need to match up. Please feel free to contact me if you require assistance adjusting the pattern for your box. I will be happy to help with the math!! But before you do, please read through the pattern so you have a general understanding of the construction.**

#### **OPTION A:**

*With Red:*

Row 1: Ch17, HDC in 2<sup>nd</sup> ch from hook and next 15 chs, ch1, turn. (16)

Rows 2-8: HDC across, ch1, turn. (16)

Rnd 9: SC around entire piece. Approx. 16 sts across, 8 sts down, 16 sts across and 8 sts down. Sl st to first SC to join. **(48)**

#### **OPTION B**

*With Red:*

Row 1: Ch17, HDC in 2<sup>nd</sup> ch from hook and next 15 chs, ch1, turn. (16)

Rows 2-14: HDC across, ch1, turn. (16)

Rnd 15: SC around entire piece. Approx. 16 sts across, 14 sts down, 16 sts across and 14 sts down. Sl st to first SC to join. **(60)**

#### **Continue cover for BOTH OPTIONS:**

**If you are using Option B, Rnd 10 is actually Rnd 16. Simply continue, bearing in mind that the Rnd #'s are different.**

Rnd 10: In **BL**, Ch1, HDC around, join with a sl st. **(48) (60)**

**TEST THE PIECE ON YOUR TISSUE BOX FOR FIT**, and continue to do so as you work the cover.

Rnds 11-12: Ch1, HDC around, join with a sl st. **(48) (60)** FO.

*With White:*

Rnd 13: Turn the piece with the WS facing. You will now be working the piece from the inside. Holding one strand of Bernat Pipsqueak and one strand of RHSS, join yarn (as shown).

Ch2 (Does not count as st), and working in **BL**, DC around. Join with a sl st to top of first DC. FO. **(48) (60)**

Working the BL will create a row of FL to attach the light brown yarn.

*With Light Brown:*

Rnd 14: With WS facing, join yarn in **FL** of Rnd 12 (red). Ch1, HDC around, join with a sl st, and **TURN**. **(48) (60)**

You will now be working the RS again.

(Be sure that you do **NOT** work the forward leaning loops of the stitches in the next row, but rather the back leaning loops. There should be a line of loops for attaching the ears later (as shown).

Rnds 15-21: Ch1, HDC around. **(48) (60)**

At the end of Rnd 21, your cover should be approx. **50% of the length** of your tissue box. This is where the tissue will poke out of the nose at the front of the box. If not, add or remove a row.

With the seam at the back (or side), mark the **FRONT** center 8 sts (as shown).

Rnd 22: Ch1, HDC to just before first marker, ch8, Sk 8, HDC in next st (after second marker) and each HDC around (as shown).

Join with a sl st. **(48)(60)**

Rnd 23: Ch1, HDC around, working the 8 skipped chs as you go. Join with a sl st. **(48)(60)**

Rnds 24-28: Ch1, HDC around. Join with a sl st. **(48) (60)** FO.

*With Green:*

Rnds 29-31: Join yarn, ch1, HDC around. Join with a sl st. **(48) (60)** FO.

*With Light Brown:*

Rnds 32-35: Join yarn, ch1, HDC around.

Join with a sl st.

**(48) (60)** FO.

You may have to add or subtract a row, depending on the length of your tissue box. The bottom of the tissue cover should not show any of the box, but should also not bunch (as shown). Pull all tails to the inside of the tissue cover and weave in all ends.

## SANITIZER SACK (5mm)

*With Black:*

Row 1: Ch11 (or the length of the bottom of the hand sanitizer bottle),

HDC in 2<sup>nd</sup> ch from hook and next 9 chs across, ch1, turn. (10)

Rows 2-4: HDC across, ch1, turn. 10)

You will now be working in rounds.

Rnd 5: HDC around entire piece, placing 2 HDC in each corner. (10 across, inc, 2 down, inc, 10 across, inc, 2 down, inc). Sl st to join. (32)

Rnd 6: In **BL**, Ch1, HDC around. (32)

Test the fit of the Sanitizer in the sack. It should fit snugly. If not, you may have to adjust the length of your chain at row 1.

Rnds 7-11: Ch1, HDC around. (32)

Rnd 12: Crab stitch around. (32)

FO. Weave in ends.

## HAT (5mm)

***\*Hat will be crocheted in the round\*.***

Rnd 2: SC around. (8)

Sl st to FO, leaving long tail for sewing.

## **ASSEMBLY**

### **NOSE & EYES**

Stuff Part A and line up Part B. Using the long tail of Part B, whip stitch the nose together through the BL of each piece (as shown). This will create a round of FL for sewing the nose to cover. Weave the tail into the nose. Be sure that the cover is on the tissue box and lined up correctly. Using the long tail from Part A, and the loops on the nose, sew the top of the nose to the opening of the tissue cover, one st at each corner and across the top 8 sts of the opening (as shown). Before securing the nose, test that the tissues can be pulled out with ease. Sew back across the opening from underneath the top of the nose (as shown). Secure the nose and weave tail into nose.

Sew the pupil to the corner of the iris. Sew the iris to the eye, at the corner, and create a highlight using white. Place the eyes and mouth where you want them and pin them in place. Remove the tissue box from the cover and sew the eyes and mouth in place. Weave in ends. Place tissue box back into cover. Using a long piece of red yarn, tack the nose up between the eyes, by weaving the yarn through the cover and the nose. Tie a couple of knots to secure it and weave in ends. (As shown).

## EARS

Ears are not stuffed. They should pucker (as shown). With the ear in its correct shape, squeeze the opening in the opposite direction and sew closed through the inner loops (as shown). At the side of the box, at center, whip stitch the ears to the loops beneath the hat. Whip stitch all the way around the ear. Secure and weave in ends. Repeat for other side.

## HAT

Fit the hat over the top of the box and line it up with the white trim on the box. Using the FL only, whip stitch the hat to the cover. This will create a row of BL to attach the antlers (as shown).

## ANTLERS

Stuff the antler pieces. Sew the small pieces to the main piece (as shown). Sew the opening of the main piece closed through the inner loops. At the front, place the antlers at each corner. Sew across the loops just above the white hat trim, and up each of 3 rounds on the hat. Sew across the back of the antler and back down 3 rounds on the other side (as shown). This will help keep the antlers upright. Repeat for other side. Secure and weave in ends.

## COLLAR BELLS

There should be 3 bells at the front and back of your cover, and 2 bells on each side of the cover. Place them evenly around the collar (the green strip on the cover) (as shown). Pin them in place, remove the box and sew bells in place. Secure and weave in ends.

## ARMS

Line up the arms, ensuring that the mittens are in the vertical position. Sew the end of the arm closed through the inner loops (as shown). Each arm should be at the front edge of the box, at the sides (as shown). Using the outer loops, sew the arms to the cover. Secure and weave in ends.

## SANITIZER SACK

Position the sack between the two mittens, ensuring that the bottom of the sack is flat and centered. Place the sanitizer in to be sure. Sew the sack to the mitten on each side. Secure and weave in ends.

Place your hand sanitizer or cough drops in the sack. Remember to pull tissue gently ☺  
Your Reindeer Sniffle Station is complete!

Season's Greetings!
