TISSUE COVER (5mm hook)

[Turn tissue box(es) upright as shown]

Important NOTE:

*** I have provided you with two options for your tissue boxes below. The number of stitches around at **Rnd 9 (Rnd 15 of Option B)** will be the number of stitches you work for the rest of the cover. Try adjusting your hook size **FIRST** to meet the stitch count of Option A or B. If you have a different stitch count for proper fit, you will have to adjust the hat and hair pieces as well, because they wrap around the cover and the number of sts need to match up. Please feel free to contact me if you require assistance adjusting the pattern for your box. I will be happy to help with the math!! But before you do, please read through the pattern so you have a general understanding of the construction.*

OPTION A:

With Red:

Row 1: Ch17, HDC in 2nd ch from hook and next 15 chs, ch1, turn. (16)

Rows 2-8: HDC across, ch1, turn. (16)

Rnd 9: SC around entire piece. Approx. 16 sts across, 8 sts down, 16 sts across and 8 sts down. Sl st to first SC to join. **(48)**

OPTION B

With Red:

Row 1: Ch17, HDC in 2nd ch from hook and next 15 chs, ch1, turn. (16)

Rows 2-14: HDC across, ch1, turn. (16)

Rnd 15: SC around entire piece. Approx. 16 sts across, 14 sts down, 16 sts across and 14 sts down. Sl st to first SC to join. **(60)**

Continue cover for BOTH OPTIONS:

If you are using Option B, Rnd 10 is actually Rnd 16. Simply continue, bearing in mind that the Rnd #s are different.

Rnd 10: In **BL**, Ch1, HDC around, join with a sl st. **(48) (60)**

TEST THE PIECE ON YOUR TISSUE BOX FOR FIT, and continue to do so as you work the cover.

Rnds 11-12: Ch1, HDC around, join with a sl st. **(48) (60)** FO.

With White:

Rnd 13: Turn the piece with the WS facing. You will now be working the piece from the inside. Holding one strand of Bernat Pipsqueak and one strand of RHSS, join yarn (as shown).

Ch2 (Does not count as st), and working in **BL**, DC around. Join with a sl st to top of first DC. FO. **(48) (60)**

Working the BL will create a row of FL to attach the beige yarn.

With Beige (or Skin Color of Choice):

Rnd 14: With WS facing, join yarn in **FL** of Rnd 12 (red). Ch1, HDC around, join with a sl st, and **TURN**. **(48) (60)**

You will now be working the RS again.

(Be sure that you do **NOT** work the forward leaning loops of the stitches in the next row, but rather the back leaning loops. There should be a line of loops for attaching the hair later (as shown).

Rnds 15-21: Ch1, HDC around. **(48) (60)**

At the end of Rnd 21, your cover should be approx. **50% of the length** of your tissue box. This is where the tissue will poke out of the nose at the front of the box. If not, add or remove a row.

With the seam at the back (or side), mark the **FRONT** center 8 sts (as shown).

Rnd 22: Ch1, HDC to just before first marker, ch8, Sk 8, HDC in next st (after second marker) and each HDC around (as shown).

Join with a sl st. **(48)(60)**

Rnd 23: Ch1, HDC around, working the 8 skipped chs as you go. Join with a sl st. **(48)(60)**

Rnds 24-26: Ch1, HDC around. Join with a sl st. **(48) (60)** FO.

With White:

Rnd 27: Rep Rnd 13. **(48) (60)** FO.

With Red:

Rnd 28: With WS facing, join yarn in **FL** of Rnd 27, ch1, HDC around. Join with a sl st, ch1, and **TURN**. **(48) (60)**

You will now be working the RS again.

Rnds 29-35: Ch1, HDC around.

Join with a sl st. **(48) (60)** FO.

You may have to add or subtract a row, depending on the length of your tissue box. The bottom of the tissue cover should not show any of the box, but should also not bunch (as shown). Pull all tails to the inside of the tissue cover and weave in all ends.

SANITIZER SACK (5mm)

With Black:

Row 1: Ch11 (or the length of the bottom of the hand sanitizer bottle), HDC in 2nd ch from hook and next 9 chs across, ch1, turn. (10)

Rows 2-4: HDC across, ch1, turn. (10)

You will now be working in rounds.

Rnd 5: HDC around entire piece, placing 2 HDC in each corner. (10 across, inc, 2 down, inc, 10 across, inc, 2 down, inc). Sl st to join. (32)

Rnd 6: In **BL**, Ch1, HDC around. (32)

Test the fit of the Sanitizer in the sack. It should fit snugly. If not, you may have to adjust the length of your chain at row 1.

Rnds 7-11: Ch1, HDC around. (32)

Rnd 12: Crab stitch around. (32)

FO. Weave in ends.

HAT (5mm)

**Hat will be crocheted in the round*.*

HAIR (5mm) Option A

With White:

Row 1: Ch36, SC in 2nd ch from hook and next 34 chs across. (35)

Row 2: Ch3, turn, (BS, SC) across. (35) (18 BS, 17 SC)

Row 3: Ch1, turn, SC across. (35)

Measure around the back of your box. Each side should be at each corner of the face (as shown). If not, increase your chain in multiples of 2. Eg. 38, or 40.

Repeat Rows 2-3 five (5) more times.

FO, leaving a very long (24 inch) tail for sewing.

HAIR (5mm) Option B

With White:

Row 1: Ch46, SC in 2nd ch from hook and next 44 chs across. (45)

Row 2: Ch3, turn, (BS, SC) across. (45) (23 BS, 22 SC)

Row 3: Ch1, turn, SC across. (45)

Measure around the back of your box. Each side should be at each corner of the face (as shown). If not, increase your chain in multiples of 2. Eg. 48, or 50.

Rows 4-13: Repeat Rows 2-3 five (5) more times.

FO, leaving a very long (about 36 inches) tail for sewing.

BEARD (5mm)

With White:

Row 1: With a long starting tail, Ch18, SC in 2nd ch from hook and next 16 chs across. (17)

Row 2: Ch3, turn, (BS, SC) across. (17) (9 BS, 8 SC)

Row 3: Ch1, turn, dec, SC13, dec. (15)

Row 4: Ch3, turn, (BS, SC) across. (15) (8 BS, 7 SC)

Row 3: Ch1, turn, (HDC, inc) across. (18)

FO, leaving long tail for sewing.

Secure the starting tail and weave it in at the back of the ear.

ASSEMBLY

NOSE

Stuff Part A and line up Part B. Using the long tail of Part B, whip stitch the nose together through the BL of each piece (as shown). This will create FL for sewing the nose to the cover. Weave the tail into the nose. Be sure that the cover is on the tissue box and lined up correctly. Using the long tail from Part A, and the loops on the nose, sew the top of the nose to the opening of the tissue cover, one st at each corner and across the top 8 sts of the opening (as shown). Before securing the nose, test that the tissues can be pulled out with ease. Sew back across the opening from underneath the top of the nose (as shown). Secure the nose and weave tail into nose.

EYES

Sew the pupil to the corner of the iris (as shown). Sew the iris to the eye, at the corner, and create a highlight using white (as shown) Place the eyes and mouth where you want them (as shown) and pin them in place. Remove the tissue box from the cover and sew the eyes and mouth in place. Weave in ends. Place tissue box back into cover.

HAIR

Starting on the left side of the box, with the front facing you and the very long tail at the top left corner, wrap the hair around the box. Line it up at the top with the beige FL beneath the white hat trim and the white trim at the bottom. Be sure to center the hair at each side. It should not be tight. There needs to be a little bit of give so that we can stuff the hair lightly later. Pin the hair in place. You may find it easier to remove the box. I like to work with the box in so that I keep everything lined up correctly. Starting at the corner, whip stitch the hair to the cover down the front left side, then around the bottom, all the way around and up the front right side. Sew through the stitches of the cover and the edge of the hair. (As shown).

Now, using the top opening, lightly stuff the hair at the back and sides. You just want to give it a bit of dimension. Do not stuff full or the stuffing will peek through the bobble stitches. When you are happy with the hair, continue to whip stitch back across the top of the hair in the opposite direction, so that you are back where you started on the front left side. Secure and weave in ends.

MUSTACHE & BEARD

With the long starting tail, thread needle and pull through the pointy end of the sl st row (as shown). Pull tight. Turn the mustache to the other side and sew the tip so that one end of the mustache is just a single bobble at the front, creating a pointy end (as shown). Weave the tail into the back of the mustache. Repeat for other mustache.

Line up the wide end of each mustache with the middle (5th) bobble of the beard (at the top). Sew each mustache piece to the beard by sewing through the edge of the first mustache bobble and the middle of the 5th beard bobble. Be sure that both tails end up on the back of the beard. Tie the ends together tightly at the back. Weave in ends. By only sewing through the middle (5th) beard bobble, you can easily adjust the mustache.

Line up the beard with the row just beneath the nose opening row (as shown). Using the tails at the top corners of the beard, tack the beard to the cover on each side. Be sure that the mustache and beard are centred. Using the very long beard tail, sew the beard to the cover across the row indicated (as shown). Secure and weave in ends.

HAT & POM POM

Place hat on top of box, just above the first row of white trim. Whip stitch hat to cover, all the way around. Attach pom to tip of hat. (As shown).

ARMS & THUMBS

Line up the arms at the sides of the cover, closer to the front than the back, ensuring that the thin side of the mitten is in the vertical position. Fold the neck trim up, and whip stitch the arms in place through the loops beneath the trim and the loops of the arms (as shown). Sew all the way around. Secure and weave in ends. Stuff thumbs and sew to the mittens (as shown). Weave in ends.

SANITIZER SACK

Position the sack between the two mittens, ensuring that the bottom of the sack is flat and centered. Place the sanitizer in to be sure. Sew the sack to the mitten on each side. Secure and weave in ends.

Your snuffle station is complete! Seasons Greetings!

From Michelle Moore ☺

EARS

Line ear up as follows:
 Below the first row of bobbles
 at the top and back two rows of
 bobbles from the front.
 Do this on each side.
 Sew the ear in place, down one
 side and around the other side.
 Be careful where you place your
 needle when you sew the ear to the
 hair. Do not place it in any of the
 larger holes between the bobbles.
 Try to work through the stitches
 and bobbles themselves.
 Secure and weave in ends.
