Yarn

Red Heart® Hygge™, 141 g/5 oz, 121 meters/132 yards
1 Ball Can Do 2 Hats

Hat weighs approximately 70 grams. Yarn uses is a #5 Chunky Weight that works better for this style of loom. Hat will fit approximately 6 month old to 1 year.

Loom

- 7" across the pegs.
- It's the 2nd largest size in this kit.

Notes

Twisted knit stitch is used throughout this project. The loom is wrapped using the eWrap style which is demonstrated in the How To video for this project.

The hat has a permanent fold to form the clean edge brim. You will need to count the cross strings when doing the brim, then the remaining of the hat is done through using a tape measure.

Instructions

Cast on all pegs using Twisted Knit eWrapping.

Brim Panel: Knit until you can count cross string rows from the pegs to the edge of the project.

Form Brim: Follow first peg to where the starting slip knot is. Take the last strand and put it onto the same peg. Then grab next strand and put it onto the next peg. Follow around until all pegs have the beginning cast on round.

eWrap the loom and throw the two strands over the last eWrap leaving 1 loop on peg.

Body of the Hat: eWrap and Knit until approximately 7.5" inches are completed.

Fasten off by cutting strand about 24". Using tapestry needle. Insert needle through next loop and pull strand through while lifting the loop off the loom. Continue around until all loops are on the strand.

Pull strand tight to close top of the hat. Secure loose ends.

Pom Pom (Optional): Using 3" diameter pom pom maker. Wrap pom pom maker and form pom pom. Demonstrated in video tutorial. Secure to the top of the hat using a bow tie so the pom pom can be removed in the event the hat needs washing or the recipient doesn't like pom poms.
