I was methodical in my approach to use both braids to the point where I could get fringe out of the remaining part of braids. I converted the braids to a yarn cake for ease of use.

There are 32 fringes per edge. You may want to reserve the yarn in advance to make the fringe pieces in advance so you know you won't run out of the main yarn too early.

Use one braid to complete half of the scarf, the second braid is used at the beginning chain to grow in the opposite direction so both sides of the scarf have the shells facing down.

Inspiration, Materials and Sizing

Wendy wondered about playing Caron Colorama Halo O'Go to see what will happen if you she uses 1 o'go from opposite ends to give the illusion of the transition as the o'go plays its own colours out.

With Hedgehog Yarns, begin again at the starting chain with the RS facing up. Hint, 2nd row is the RS. We will be creating a mirrored image of the stitchwork so the two sides look correct when draped down the body.

Fringe

Create a fringe for every other stitch at short end of the scarf. Cut three 10" strands of yarn in desired colors.

Hold the three strands together and fold at center. Use crochet hook to pull folded center of fringe through edge st of Scarf, then pull ends of fringe through the resulting loop, and pull until tight.

Favour the right side of the scarf with placing the hook from the back to the front. Loop yarn and pull through stitch and loop so the cross over is on the front side of the scarf.

Trim evenly after all Fringes are attached.

Style scarf. The maple leaf pin is something a local artisan did that I found in a fibre festival many years ago.
