

SNOWFLAKE INTERLOCKING | INTERMEDIATE

snowflakethrow.pdf | ©2023 THE CROCHET CROWD

Stitch Key

Interlocking is using 2 yarns are the same time.

White used in rounds 1, 3, 5, 7 and 9 are to keep the yarns in front of the project when resting.

Keep 2, 4, 6, 8, 10 and 11 are the red, pink or gray used that frames the snowflake.

Jessie has us trapping the chains between rounds under the stitches but if you prefer no colour bleeding, push the chain behind the work.

Lighter blue in diagrams has the stitch behind the previous round and then jumps in front in the next stitch. This locks the rounds together.

Crochet Diagrams

Crochet tutorial worksheet
by Michael Sellick. Originally
designed by Jessie Rayot.

These squares are interlocking
format and can be complicated.
This worksheet has each round
separated from each other.
